

# Proposed SE 6th St Traffic Improvements

**A** “25 MPH” Pavement markings (left) and “Residential Area” signs (right) will be installed at both ends of SE 6th St. As motorists turn off 101st Ave SE and Bellevue Way onto SE 6th St, they will see the “Residential Area” signs and pavement marking signifying they are entering a residential area.

# Proposed SE 8th St Traffic Improvements

**B** Median at intersection of SE 8th St and 100th Ave SE allows for correct turning movements

**C** Chicanes between 101st Pl SE and 102nd Ave SE create one-lane zones that allow one vehicle at a time to pass.

**D** Split speed humps between 103rd Ave SE and Bellevue Way allow emergency vehicles to navigate around without much delay
